

A Promise to You

**bluewater**<sup>®</sup>  
manufacturing corporation

*"In one drop of water are found all the secrets of all the oceans."  
- Kahlil Gibran*

*We believe that the presentation of that  
one drop of water is as precious as the resource itself.  
In our presentation we reveal our promise:*

*Our priorities are solidly based on the  
rich heritage of craftsmanship and historic design.  
Our promise is to honor that tradition of hand made faucets and  
fittings that generations will treasure forever.*

*Bluewater.  
A Promise to You.*

Nisi 9" Shower  
Trim with Metal  
Temperature Dial 509

*A* child as well as your safety is most important when it comes to water temperature. Bluewater thermostatically-controlled showering systems are engineered to the highest standards for precise temperature control, performance, comfort and safety.

Thermostatic shower valves are available in  $\frac{1}{2}$ ",  $\frac{3}{4}$ " and 1" sizes as well as a wide variety of shower plate designs with trim to coordinate with any Bluewater collection.

They valve the water volume needed for a wide variety of custom showering systems including body sprays, shower bars, showerheads and hand showers.

Thermostatic shower systems provide the ultimate in safety with the ease of use by allowing you precisely select the most comfortable water temperature you prefer. The safety and performance of the thermostatic system assures a consistent water temperature by automatically adjusting for hot and cold water supply conditions.

Xess Hexagon Trim with Handle 500

by automatically adjusting for hot and cold water supply conditions.
