**Bluewater Manufacturing Corporation products are I.A.P.M.O. listed and are tested to ASME A112.18.1-2005/CSA B 125 and ASSE 1016 and comply with section 9 of NSF 61, AB1953 for basin, bar and kitchen faucets, shower heads, pressure balanced and thermostatic in wall valves.**

**When “Max Flow Rates” are shown on any page within the Bluewater catalogue – this will indicate the maximum flow rate of the unrestricted pressure balanced or thermostatic valves. All shower heads comply with the Department of Energy applicable water conservation standards.**

**For greater information ask for the current I.A.P.M.O. listing agreements.**
